

EDU-MAX

PREPARE FOR GREATNESS

COMPANY PROFILE

ABOUT US

EDU-MAX is a leading South African based Group of Companies, offering clients B-BBEE Aligned Skills Development, Training and Compliance Solutions.

The EDU-MAX Group prides itself in the quality of training, facilities and customer service provided by our committed, experienced and dedicated team.

Our turn-key solution to B-BBEE and Transformation Management provides clients with credible, premium solutions, each tailored and unique to the industry offering, yet encompassing the same values and drive to be the best.

Our stable of Education and Transformation brands include ITrain, Talent Development Institute and The Institute For Regulatory Compliance. With regional offices located in Johannesburg, Durban and Cape Town, and additional satellite offices across several regions, EDU-MAX assists clients nationally, offering training at our premises, or yours.

As a leader in Microsoft Office 365 User Enablement, ITrain specializes in the development of IT related Skills across multiple levels and business sectors, with the aim of equipping delegates with the tools needed to increase their productivity and provide a clear, measurable ROI and value to their organization.

ITrain offers clients effective solutions to develop the digital skills required of their team, through interactive and dynamic programmes, led by Certified Industry Experts. Our integrated training solutions provide clients with innovative and strategically aligned interventions to assist with the skills development and growth of their staff. With the surge of the dot com bubble and the ever-evolving tech world, we strive to keep ahead of the game and use each opportunity for further development in providing premium training solutions that are aligned with the latest content, techniques and learning styles.

We pride ourselves in the quality of our instructor-led training sessions, facilities, learner support structures and client service. Our interactive facilitation methods are combined with relevant, up-to-date content-based sessions, ensuring effective skills transfer and increased knowledge retention. The rapid growth of technology and on-going development of applications that are

available to organisations, led to the design of training offerings that start with an assessment to gauge the existing level of competency of the candidate, giving us the opportunity to provide clients with carefully considered training recommendations and enabling us to enroll candidates onto relevant programmes aligned to their skillset and development requirements.

Courses can be customized to include modules aimed at developing those areas identified in the pre-assessment and ensuring increased knowledge retention and optimization of each candidate's use of the application and software available to them.

ITrain provides clients with a fully project managed turnkey solution from the needs analysis of learners, through to programme implementation, management and finalization. We work closely with businesses in numerous industries to best align computer skills and the use of software applications to improve business processes.

Effective use of Computer Programmes enables organisations to increase productivity, reduce costs and ultimately offer a more competitive product and service to clients.

LEADERSHIP SKILLS AND SETA ACCREDITED LEARNERSHIP PROGRAMS

Talent Development Institute specializes in identifying and developing leadership skills and talent, to assist in personal growth and development. With over 50 years' combined experience, the TDI team is able to deliver credible, dynamic and effective solutions to meet your company's strategic Skills Development and Training objectives.

Having built a network of like-minded, reputable Channel Partners, we are able to offer a diverse portfolio of services, across most regions and business sectors, each tailored to suit the client's needs and requirements throughout each stage of the employee life cycle - attracting, developing, and retaining talent.

TALENT DEVELOPMENT INSTITUTE – B-BBEE AND TRANSFORMATION ADVISORY SERVICES.

Broad Based Black Economic Empowerment has become an integral part of the way in which South African companies operate, strategize and market themselves to potential clients. TDI offers businesses cost-effective and sustainable B-BBEE solutions tailored to align with their business model and objectives. Many companies approach B-BBEE as a tick-box exercise but it doesn't have to be. At TDI, we assist our clients in achieving their desired B-BBEE level whilst making a meaningful difference and noticeable impact through the solutions implemented.

We partner with our clients from the strategic design phase right through to implementation, monitoring and issuing of B-BBEE certificates. Each company is unique, therefore understanding your business forms an integral part of our process. This allows us to develop innovative strategies that are not only effective but scalable.

OCCUPATIONAL HEALTH & SAFETY

The Institute For Regulatory Compliance offers clients specialized Risk Management and Occupational Health and Safety Solutions, including accredited and bespoke Occupational Health and Safety training interventions to optimize business processes and mitigate risk in the organization.

As leaders in Occupational Risk Management, IRC specializes in the development, implementation and management of strategic and value-added Risk Management Solutions to effectively combat areas of potential risk and ensure regulatory compliance for your organization.

Made up of highly experienced and qualified Health and Safety professionals and Risk Management experts, the IRC team brings a wealth of knowledge and first-hand industry experience and offers clients sound advice and guidance on best practice safety and compliance solutions.

We provide premium Health and Safety Consultancy Services, which include Site Safety Inspections, Risk Assessments, Health and Safety Audits, Gap Analysis and Development of Health and Safety Policies and Management Systems.

We provide premium Health and Safety Consultancy Services, which include:

- Site Safety Inspections
- Risk Assessments
- Health and Safety Audits

Quality is Key

At EDU-MAX, we pride ourselves in our Unwavering Commitment to Exceptional Quality in Service Delivery.

We continue to build committed partnerships with our clients because:

- We understand their organizations and the unique solutions required to effectively integrate into their organizational culture.
- We guarantee the highest level of service delivery.
- Our flexible and customized solutions are designed around client-specific requirements.
- We stay at the forefront of the industry, educating clients and continuously advising on innovative and relevant solutions.

Instructor-Led Training with EDU-MAX

Our instructor-led training interventions are conducted by a team of subject matter experts, in an interactive and engaging format that is targeted at equipping delegates with the necessary knowledge and required skill sets to effectively address relevant needs in the organization and assist in increasing productivity and the organisation's bottom line.

AT EDU-MAX, WE PRIDE OURSELVES IN OUR
UNWAVERING COMMITMENT TO EXCEPTIONAL
QUALITY IN SERVICE DELIVERY.

Why partner with EDU-MAX?

It's quite simple, we understand our client's needs. At EDU-MAX, we provide comprehensive support through innovative and relevant infrastructures, technology and support systems to accommodate each client's specific set of requirements and unique needs.

Our ability to facilitate in the development and implementation of bespoke solutions and customised training interventions, enables us to meet clients' needs in the ever-changing landscape across various industries and business sectors, both locally and abroad.

EDU-MAX offers clients holistic and integrated solutions that enable the business to flourish, and not only meet their goals, but exceed them.

Consulting Services

"Consulting" is often associated with "talking" more than "doing". Each business within the EDU-MAX group is headed up by a team of industry experts that provide practical, dynamic and relevant solutions, customized to seamlessly integrate with our client's business strategy and existing systems and policies.

We understand the unique pressures of the business and production environment, and assist business owners and managers to build safe, productive and profitable organizations.

Our consulting team make use of sector specific knowledge acquired through years of first-hand industry experience to streamline the consultancy process and create solutions that are effective and facilitate in the growth of the organization.
